ACKNOWLEDGMENTS

This plan is the result of the vigorous and dedicated effort of many people in our Greater Flagstaff community. The members of the Citizen Advisory Committee represent a broad spectrum of organizations and businesses, and citizens with a diversity of values and cultures. Their commitment will help us preserve and enhance what we value: the land we live in, the places we build and our neighbors. In addition, the general community was invited to give input on many occasions over a four-year period, which ensured that we were mindful of the values and ideals of our citizens throughout this process.
